

## News Release from the IULTCS

3 September 2014

### IULTCS on Facebook

Online social media facilitates global discussions. These forums allow rapid sharing of information – especially on mobile platforms – and are increasingly where today’s opinions on key topics are formed. The speed of interchange of ideas and the democratic nature of such communications are changing the way people interact and decisions are made. Led by Dr. Patricia Casey – President of the IULTCS – the IULTCS now has a Facebook page which can be accessed via [www.iultcs.org](http://www.iultcs.org) or directly on Facebook by searching for IULTCS. Please visit us online, bookmark the page – which we hope you will “like” – and be brought up to date on activities in which your IULTCS is involved. Of course sharing of knowledge and concerns of a technical nature are encouraged.

## End News Release ##
